Subject:

Dear Mr Tarr,

Congratulations Governor Cooper & Mr. Tarr on North Carolina joining the U.S. Climate Alliance and your courageous commitment to a healthy, prosperous & safe future for all North Carolinians.

And thank you for your and DEQ's strong stand to hold Duke & the Atlantic Coast Pipeline accountable and to NOT allow them to pollute our waterways, dispoil our environment and heat up the atmosphere with fracked methane gas.

As we transition North Carolina to a 100% renewable energy based economy by 2030, let us remember that right now the Atlantic Coast pipeline is Duke's attempt to lock us into a future you clearly, by your actions, do not want.

To achieve that healthy, prosperous & safe future for all North Carolinians, one that would not be dependent and dominated by fracked methane gas or fossil fuels, we thank you for your strong commitment and recent actions like stopping off shore drilling and halting the Atlantic Coast Pipeline.

The Atlantic Coast Pipeline would lock us into a dangerous, costly and unneeded investment that will divert funds from North Carolina's Renewable based future and away from that Green future you have so bravely committed to.

Please join other States like [W.VA](#), NY State & the recent Federal Ruling that the Florida Sabal Trail pipeline MUST be held accountable for the water, and environmental damage a fracked UNNATURAL gas pipeline would cause, and stop the ACP pipeline from being built and despoiling our world.

Sincerely,
Maureen Linneman
